

# A Portable Write-Blocker that Supports Secure Access to PCIe, USB 3.0 & SATA Hard Drives

- **Secure, write-blocked access to PCIe M.2 NVMe, AHCI & SATA SSDs**
- **Secure, write-blocked access to SATA and USB 3.0 hard drives**
- **Features a fast SuperSpeed USB 3.0 host connection**
- **Browser-based user interface to manage all WriteProtect-PORTABLE operations**

The WriteProtect™-PORTABLE write-blocker provides secure, read-only, write-blocked access to PCIe, SATA, and USB 3.0 suspect hard drives. Extremely fast performance is powered by a SuperSpeed USB 3.0 host connection to easily manage large capacity hard drives. The WriteProtect-PORTABLE supports 3 interfaces in a single, compact and easy-to-transport device. Designed to work efficiently in the field or in the lab, this affordable write-blocking solution is a must have for every digital forensic investigator.

## FEATURES

- **Built-in, read-only, write-blocked** support for PCIe, SATA and USB 3.0/2.0/1.1 storage technologies
- **Supports PCIe drives** including AHCI/NVMe/SATA M.2 SSDs and PCIe and mini-PCIe express cards using optional PCIe adapters
- **Superspeed USB 3.0** host connection for extremely fast operation
- **Features 1 PCIe drive port**, 1 USB 3.0 port, 1 SATA port, 1 Gigabit Ethernet port
- Support for **2.5"/3.5" IDE, 1.8" IDE, 1.8" ZIF, mSATA, microSATA, eSATA** and flash media is available using optional adapters
- Use the **browser-based user interface** to manage all WriteProtect operations including software updates. Connect to your network using the WriteProtect's Gigabit Ethernet port
- **HPA/DCO detection and capture** supported via the browser-based user interface
- **6 LEDs for power, host, device, activity, and HPA/DCO detection** allow you to easily monitor functions
- The WriteProtect-PORTABLE features a **compact size** at 6.2" x 4.2" x 2.1" for use in the lab or in the field
- **Compatible** with forensic acquisition and analysis software

# WriteProtect™ PORTABLE

## A Portable Write-Blocker that Supports Secure Access to PCIe, USB 3.0 & SATA Hard Drives

### IN THE BOX

The following items are included with WriteProtect-PORTABLE:

- Power supply & power cord
- 1 SAS/SATA power & data cable
- 1 USB 3.0 cable
- 1 CAT6 network cable

### OPTIONS

The following options are available for the WriteProtect-PORTABLE:

- PCIe adapter kit for M.2 PCIe (NVMe, AHCI and SATA), PCIe and mini-PCIe express cards. This kit is required for access to PCIe type drives
- eSATA cable
- mSATA adapter
- Flash media reader for compact flash, SD cards and other flash media
- 2.5"/3.5" IDE to SATA adapter
- 1.8" IDE to SATA adapter
- 1.8" IDE ZIF to SATA adapter
- 1.8" microSATA adapter

### SPECIFICATIONS

Power Requirements	Power Supply Voltage(DC IN)	Output Voltage (DC OUT)	Net Weight	Dimensions	Agency Approvals
60 watts	+12DC @ 5A	+5VDC@2.5A, +12VDC@2.5A	0.8lbs/ (.36kg)	6.2"(L) X 4.2" (W) X 2.0"(H) 15.7cm X 10.6cm X 5.3cm	RoHs compliant
